

# Life Philosophy

## Mission Statement

To remember where I have been and where I will go through maintaining positive relationships with family and friends. To find happiness, fulfillment, and value in living, I will seek out and experience all of the pleasures and joys that life has to offer. To choose the ethical way by making a personal commitment to honesty and integrity. To find peacefulness within myself by looking inward while using my heart to guide my dreams and desires, and my mind to pursue knowledge, creating balance among all of my obligations. To content myself in my surroundings so I will always know where security lies within my life. To build a reputation of being dedicated to every goal I choose to pursue while having successes in both my personal and professional life. To enjoy every moment along this journey finding laughter, love, and happiness with each day that passes.

## Beliefs

What I believe is right or wrong might not necessarily mean that it is right or wrong for another person or a company. Business beliefs are important because without a commitment to trust, honesty, and integrity, the very foundation of business can not be reached. However with the ones that I have listed I believe that most companies will agree with what is right and what is wrong.
